

DUST CONTROL RAMP SHOE

SYSTEM DESCRIPTION

The Ramp Shoe is made up of heavy-duty anodized aluminum. The Ramp Shoe features a trapezoid anchoring leg, which is firmly secured to the concrete floor. The system is securely fastened to the concrete floor at regular intervals with the use of fasteners. The ramp provides a sloped transition surface that terminates at the height of the access floor tile edge. The profile protects tile edges to eliminate trip hazards and ensures easy access of trolleys.

The Ramp Shoe is a full 15 inches wide which meets ADA 1:12 requirements for ramped surfaces. It protects the ramp from equipment damage and makes an excellent seamless transition between two surfaces. The heavy duty Ramp Shoe are designed to take care of rolling of heavy equipment such as trolleys & heavy footfall.
