

**BIM Modeler (Full Time Role)**  
**Mumbai, India**

**ABOUT UNITILE:**

Unitile stands as India's premier raised access floor brand, honored with the esteemed recognition of being the Rising Brand of Asia in 2021.

We have successfully assisted over 15,000 businesses in embracing transformative changes, specializing in creating forward-looking workspaces through our intelligent access flooring and cutting-edge data center solutions. Our expansion into new building material products, including those related to metal, gypsum, plastic, and acoustic solutions, demonstrates our commitment to diversification and innovation. At the heart of our manufacturing endeavors lie sustainability and innovation, supported by state-of-the-art machinery and automation. This commitment allows us to expand our global footprint and redefine the landscape of flooring technology.

Driven by a team of young and dynamic leaders, we're committed to shared success and aspire to be a global leader in raised access floor systems, acoustics, and related industries.

**JOB SUMMARY:**

We are seeking a skilled and detail-oriented BIM Modeler to join our dynamic team. The successful candidate will play a key role in creating accurate and comprehensive 3D models of Products in projects using Revit software. The Revit BIM Modeler will collaborate with architects, engineers, and other stakeholders to ensure the integration of design concepts and construction requirements into the BIM model. This position requires a strong understanding of architectural and construction principles, as well as proficiency in Revit software.

**KEY RESPONSIBILITIES:**

- 1. Model Development:** Develop detailed 3D BIM models using Revit based on architectural and engineering drawings. Ensure accuracy and completeness of the BIM models, incorporating design changes and updates as required.
- 2. Collaboration:** Collaborate with architects, engineers, and other project stakeholders to understand project requirements and design intent. Coordinate with the project team to resolve conflicts and discrepancies in the BIM model.
- 3. Quality Control:** Conduct regular quality checks on BIM models to ensure adherence to industry standards and project specifications. Review and verify the accuracy of information within the BIM model.
- 4. Documentation:** Generate 2D drawings and construction documentation from the BIM model. Maintain proper documentation of model changes and revisions.
- 5. Communication:** Communicate effectively with project team members to address design and coordination issues. Participate in project meetings and provide input on BIM-related matters.
- 6. Training and Support:** Provide training and support to team members on Revit BIM processes and best practices. Stay informed about advancements in BIM technology and incorporate new tools and techniques into workflows.

**REQUIRED SKILLS, QUALIFICATION AND EXPERIENCE:**

**Skills:**

- Proficiency in REVIT
- BIM Knowledge
- Architectural and Construction knowledge
- AutoCAD Proficiency
- Communication skills
- Attention to details
- Problem solving and Adaptability
- Documentation skills
- Collaboration and Team work

- Time management
- Interdisciplinary coordination
- Continuous learning

**Qualification and Experience:**

- Bachelor's degree in Architecture, Engineering, or a related field.
- Professional certification in BIM or related field.
- Proven experience as a BIM Modeler with a focus on Revit software. (portfolio required).
- Proficiency in Autodesk Revit, AutoCAD, and other relevant software.

Salary would be in line with the experience.

***IT'S MUCH MORE THAN WORK HERE AT UNITILE!***
